District Policy 2.01.065, Committees and Other Assignments

**Staff Contact:** 

Timothy R. Shaw, General Manager

## **Recommended Committee Action:**

I recommend the Finance Committee review the existing subject policy in the context of the need for more clarification on dissolution of ad hoc committees and/or the need for the full Board to ratify ad hoc committee assignments.

## **Current Background and Justification:**

There was considerable discussion on the status of the Facilities/Office Ad Hoc committee at the May 21st RLECWD Board meeting. Some of the discussion revealed the absence of clarity on how an ad hoc committee is established, for how long, and how is it dissolved. Possible improvements to a policy revision could include, but are not limited to:

- Ad hoc committee appointments (creation of the limited scope, limited duration committee) are to be initiated by the Chair and ratified by the full Board.
- Ad hoc committees assignments (which directors serve on a given Committee are directed by the Chair with cooperation from the assigned Board Members, i.e. the Chair cannot assign an unwilling participant.
- Ad hoc committees are dissolved on the sixth month following the Board ratification of the appointment of the ad hoc, e.g. if the Board ratifies XXX Ad Hoc Committee at the June 2018 Board meeting, the XXX Ad Hoc Committee is deemed by default to be dissolved at the December 2018 Board Meeting. Ad hoc committees are also deemed to be dissolved upon the submittal of a final report.

 Ad hoc committees which do not meet or do not report to the full Board for three consecutive regular Board meetings are deemed dissolved.

Some of the above clarification could be crafted to apply to standing committees as well, e.g. standing committee assignments must be ratified by the full board.

## **Conclusion:**

The minimum action needed is to preclude the perception that RLECWD is creating perpetual ad hoc committees. To satisfy the exceptions to the Brown Act, ad hoc committee cannot simply be called ad hoc and function as a standing committee not open to the public. Additionally, the Board should be mindful that no single Board Member should have disproportionate authority. We must guard against manipulations and interpretations that tilt the balance of authority.

## **Relevant Excerpts from Existing RLECWD Policy Manual**

2.01.060 Duties of President and Vice President. (See Ca Water Code §30578) The President shall preside at all meetings of the Board and act as Chairperson of the Board, shall appoint all committee members as specified in section 2.01.080, shall sign all contracts on behalf of the District, and shall perform all other duties necessary or incidental to his/her office as authorized or imposed by the Board. In the absence of the President or because of the President's inability to act, the Vice President shall take his/her place and perform the duties of the President.

**2.01.065 Committees and Other Assignments.** The Board President shall appoint such standing and/or ad hoc committees as may be deemed necessary or advisable by himself/herself and/or the Board. The President of the Board shall make all appointments of Directors to ad hoc and standing Committees. In addition, the President of the Board may designate Board members to represent the Board as needed.

(a) The duties of a standing committee shall be determined at the time of appointment. Standing committees shall only be dissolved by majority vote of the Board.

(b) The duties of an ad hoc committee shall be determined at the time of appointment and the committee shall be considered dissolved when its final report has been made.

(c) If the Board President or the Board has created a standing committee, then the members of such committee shall be appointed for the year no later than the Boards regular meeting in January.

(d) All meetings of standing committees shall conform to all open meeting laws (e.g., Ralph M. Brown Act) that pertain to regular meetings of the Board.

Notice from Fathom Regarding Discontinuance of Customer Consumption

Software Unallocated Loan Proceeds from AMI Loan

**Staff Contact:** 

Timothy R. Shaw, General Manager

## **Recommended Committee Action:**

I recommend the Finance Committee direct staff on allocation of Advanced Metering Infrastructure (AMI) loan proceeds which were previously allocated for the customer consumption data program, through Fathom. There are also additional allocations of loan proceeds in the AMI meter loan which should be confirmed, recommended by Committee and authorized by the Board.

## **Current Background and Justification:**

For some time, the District has been working with its AMI metering contractor, Ferguson to complete the contract for AMI metering. A sub-component of the contract calls for software and programing to allow customers to interface with their consumption data. Fathom was the subcontractor selected for such service. The Fathom product has never been fully functional and there are only 14 customers (including staff and Directors) enrolled in the program. The allocation for this contract component is approximately \$41,000. With the discontinuance notice from Fathom, the District has unallocated loan proceeds, i.e. money the District borrowed and is paying 3.1% interest for 10-years. If the District continues to value a customer consumption interface, we would need to initiate a new RFP process to procure the product/services from a provider other than Fathom.

If the district is no longer interested in a customer consumption portal, there are a few options to consider:

- Apply the proceeds to the loan principal (early re-payment). This will not eliminate interest charges. The AMI loan is structured differently to the Cr+6 loan. Prepayment does not prevent interest charges with the AMI loan.
- Identify other capital improvements/purchases which could be effectively funded via these relatively favorable terms (3.1% interest). One such capital improvement would be a multi-function printer (MFP). The District currently owns two refurbished Multi-Function printers, which require \$2,200 per year maintenance contracts. I've received a quote for a new MFP via a government agency joint purchasing contract for approximately \$9,000. The new MFP has maintenance included for 5-years and the price per click (toner charges) are less with the new MFP. The District would balance out the purchase price at the 4-year mark. The savings with the new MFP (compared to the maintenance cost for the old two MFPs) would pay for the purchase price after 4-years. Remaining unallocated loan proceeds can be used to reduce interest charges for the remainder of the loan.
- The recently adopted Proposed Budget for FY 18/19 includes funding for upgrading billing software (CUSI). Some of the unallocated AMI loan proceeds could be allocated for a share of the billing software purchase price. This action would mitigate the trend Director Ridilla expressed concern over where the Districts spending is trending toward deficit spending.

### Conclusion:

Review and discuss the options described above. With this direction, staff can focus on the preferences provided by the committee to establish actionable documents with greater detail. For example, if the Committee directs capital purchase item(s), staff will prepare the documents requisite for Board action to authorize the purchase and execute the early loan repayment using the unspent balance of AMI loan proceeds.

Beyond the Fathom component of the loan, there appears to be funding for facilities which the District may no longer need. The total remaining unspent balance is approximately \$92,000.

Bartle Wells Associates Rates Addendum Options

**Staff Contact:** 

Timothy R. Shaw, General Manager

#### **Recommended Committee Action:**

I recommend the Finance Committee review and discuss the options provided by Bartle Wells Associates regarding the rates addendum study in process for fire protection services. Then, direct staff on feedback to be provided to Bartle Wells.

### **Current Background and Justification:**

Bartle Wells has completed the data analysis and allocation of Operating and Maintenance costs by customer class phases of the study. Bartle Wells has further produced three options for finalizing the study. Bartle Wells has requested feedback from the District on which of the three options the District prefers for presentation in the final study for Board consideration.

### Conclusion:

The three options provided by Bartle Wells are included with the documents package for this committee meeting. The Finance Committee should review and discuss these options with staff to allow staff to provide the feedback requested by Bartle Wells. Bartle Wells can then finalize the study and staff can place agenda items and documents on an upcoming Board agenda.
